Re: Change in KIBOR* Date Selection and Markup Calculation Basis

Dear Sir / Madam,

MCB has always taken pride to serve your financial/business needs and we value our relationship. In order to strengthen this relationship the Bank has always strived to improve upon its customer service standards and in line with the same it has been our prerogative to improve upon our systems/products.

In line with the same we have planned to house our consumer finance business onto our state of the art Core Banking platform. Besides major improvements, this system will allow us the flexibility to provide you with the following:

- 1) create and offer competitive products,
- 2) your auto loan facility is on a floating rate basis and is re-priced after every 12 months depending on the prevailing KIBOR, while the spread over KIBOR remains constant. As per previous practice, we were using the KIBOR of the last working day of the previous month to reset the markup rate. Going forward your auto loan facility will be re-priced based on the KIBOR available on the first working day of the month.

Moreover, as per regulatory requirement all Banks are required to inform their customers on the method of calculation used by Bank's for computation of markup. Please note that the basis of calculation of monthly mark-up will be on number of days/360 as per Prudential Regulations issued by State Bank of Pakistan on Consumer Financing. Also the spread over KIBOR applied to your loan (at the time of loan booking) will not change in any way.

In case you have any query on this, please feel free to call our Call Centre, or visit our Customer Walk-in Centers (9:00am to 5:30pm) on the details given in Appendix "A".

Best Regards,

This is a system generated letter and does not require any signature.

* KIBOR-Karachi Interbank Offer Rate.
