#### **Performance Review**

Profit before Tax (PBT) of the Bank for the three months period ended March 31, 2019 increased by 24% and was reported at Rs. 9.08 billion. The Bank recorded super tax for calendar year 2017 @ 4% in the first quarter, as enacted through Second Supplementary Finance, which resulted in the Profit after Tax growth of 6%.

The significant change in the macro-economic factors made the operating environment more challenging with discount rate registering an increase of 500 bps since January 2018. Based on the anticipated interest rate movement, the Bank strategically focused on asset base with shorter maturities, resulting in 22% increase in net interest income over corresponding period last year. On the gross markup income side, the Bank reported an increase of Rs. 9.2 billion over same period last year. Analysis of the interest earning assets highlights that income on advances increased by Rs. 4.7 billion, primarily on account of improved yield of 351bps coupled with increased average advances volume of Rs. 29 billion. On the investment side, gross markup income increased by Rs. 3.3 billion, due to increased yield of 251bps. On the interest bearing liabilities side, the cost of deposits increased by 229bps over corresponding period last year, corroborating with the increasing interest rates. The Bank increased its average deposits by Rs. 70 billion when compared with corresponding period last year.

The non-markup income block of the Bank was reported at Rs 3.5 billion with major contributions coming in from fee, commission income and income from dealing in foreign currencies. Fee income increased by 3.2% with contributions from card related fee, commission on guarantees and remittances. The subdued activity on the equity market front resulted in significant reduction in capital gains.

On the administrative expenses side excluding pension fund, despite the surge in inflationary pressures the Bank was able to contain the growth to 12%. The increase includes the premium cost amounting to Rs. 288 million on account of deposit protection premium, which was effective from July 01, 2018. Excluding the impact of deposit protection premium, the increase in operating cost was only 8.31%.

On the provision side, the bank reversed provision amounting to Rs. 405 million on advances whereas reversal of Rs. 26 million was recorded on equity portfolio in the first quarter of 2019.

#### **MCB Bank Limited**

On the financial position side, the total asset base of the Bank on an unconsolidated basis was reported at Rs. 1.36 trillion depicting a decrease of 9% over December 2018. Analysis of the assets mix highlights that net investments have decreased by Rs. 299 billion (-40%) with a corresponding increase in Lending to Financial Institutions by Rs.167 billion (+475%) to capitalize the anticipated interest rate hike in the month of March, 2019.

The asset quality of the Bank remained under check with no significant accretion in the classified advances base. The coverage and infection ratios of the Bank were reported at 86.83% and 9.09% respectively.

On the liabilities side, the deposit base of the Bank registered an increase of Rs. 17 billion (+2%) over December 2018 whereas, CASA to total deposits ratio was reported at 91.18%. Earnings per share (EPS) for the three months period ended March 31, 2019 was Rs. 4.29 as compared to Rs. 4.03 for the corresponding period last year.

The Board of Directors declared first interim cash dividend of Rs. 4.0 per share for the three months period ended March 31, 2019.

#### Ratings

The Bank enjoys highest local credit ratings of AAA / A1+ categories for long term and short term respectively, based on PACRA notification dated June 27, 2018. Moreover, PACRA has maintained TFC rating of MCB Bank Limited at AAA, through its notification dated June 27, 2018.

#### **Economy Review**

During the first quarter of 2019, Pakistan's macroeconomic fundamentals showed some improvement after a turbulent 2018 as the authorities' measures on monetary and fiscal consolidation have started bearing fruit. However, despite encouraging signs, there are still some significant areas which would need careful attention going forward.

According to State Bank of Pakistan, Pakistan's current account deficit stood at \$9.6 billion during Jul – Mar FY19 from \$13.6 billion in the comparative period last year, thus, recording a sizeable improvement. While Pakistan's exports remained lower, in dollar terms, falling by 1.3% during Jul – Mar FY19, the improvement in the current account has largely come about due to lower imports from \$41 billion in Jul – Mar FY18 to \$39 billion in the current year, a reduction of 4.9% in dollar terms and through workers' remittances which stood at \$16.1 billion, posting a healthy increase of 9.0% from the previous fiscal year.

Pakistan's FX reserves have also improved during the quarter through bilateral support from Saudi Arabia, UAE and China. In particular, SBP reserves have risen from \$7.2 billion at the end of 2018 to reach \$10.5 billion by March 2019. Pakistan is also close to reaching a deal with the IMF on a bailout package and is in the process of floating a Panda bond in the international market. These official inflows have helped stem the tide on the external front as the Pakistani rupee depreciated by just 1.38% during the quarter, after a significant devaluation in 2018.

Pakistan's CPI inflation, meanwhile, began the quarter at 7.19% YoY in January 2019. However, most recently, inflation rose to 9.41% in March 2019 due to the lagged impact of PKR devaluation, adjustments in electricity and gas prices, rise in domestic petroleum prices and higher food inflation. Core inflation, however, fell from 8.7% YoY in January 2019 to 8.5% YoY in March 2019. The State Bank of Pakistan raised the policy rate by a cumulative 75 bps during the quarter from 10.00% to 10.75%. These measures will help contain inflationary pressures in the economy.

On the fiscal side, the government's budget deficit stood at 2.7% of GDP during H1 FY2019, and it is expected the full fiscal year's deficit will reach above 6% of GDP. Tax collection has been a major challenge with FBR considerably behind its annual target. The government has much to work on fiscal consolidation, both in terms of increasing tax revenues and reducing expenditures.

As regards Pakistani stock markets, the KSE-100 rose during the quarter owing to improvements in the economy particularly on the external front, beginning the quarter at 37,067 index points and ending it at 38,649 index points.

Muhammad Ali Zeb

MCB Bank Limited

Director

While GDP growth is expected to fall to 3.0% to 3.5% in the current fiscal year as the economy remains in transition, the government and central bank's policy measures will help correct the monetary and fiscal imbalances in the economy and put the country on a sustainable long-term path towards economic recovery. At the same time, however, the authorities will need to remain vigilant and respond appropriately to any downside risks emanating on both the domestic and external front.

#### **Future Outlook**

Pakistan is expected to achieve GDP growth of 3.0% to 3.5% in FY19, much lower than the growth exhibited in FY18 of 5.8%. Cumulative interest rate rises of 5.0% during the past fifteen months and considerable pressures on the external front have lowered economic growth. However, necessary steps have been taken by the authorities to ensure the long-term health of the economy. At the same time, it is imperative that the government going forward focuses on bringing structural changes that will help maintain fiscal discipline and keep government expenditures in check. Export competitiveness still remains a concern and requires special attention to boost productivity, reduce costs of production and embark on greater diversification in the export sector. Despite the devaluation of the rupee relative to the dollar and the receipt of official inflows, pressures emanating from the external side will have to be closely watched. Reduction in import bill will also be necessary to further improve the country's foreign exchange reserves.

#### **Appreciation and Acknowledgements**

The Board of Directors of MCB Bank Limited would like to thank the Government of Pakistan, the State Bank of Pakistan, the Securities & Exchange Commission of Pakistan and other regulatory bodies for their continued support, all shareholders and customers of the Bank for their trust, and our employees for their continuous dedication and commitment.

For and on behalf of the Board of Directors,

**MCB Bank Limited** 

Notes to the Unconsolidated Condensed Interim Financial Statements (Un-audited) For the three months period ended March 31, 2019

#### 1. STATUS AND NATURE OF BUSINESS

MCB Bank Limited (the 'Bank') is a banking company incorporated in Pakistan and is engaged in commercial banking and related services. The Bank's ordinary shares are listed on the Pakistan stock exchange. The Bank's Registered Office and Principal Office are situated at MCB -15 Main Gulberg, Lahore. The Bank operates 1,374 branches (2018: 1,376 branches) within Pakistan and 11 branches (2018: 11 branches) outside Pakistan (including the Karachi Export Processing Zone branch).

#### 2. BASIS OF PREPARATION

- 2.1 These unconsolidated condensed interim financial statements represent separate financial statements of MCB Bank Limited. The consolidated condensed interim financial statements of the Group are being issued separately.
- 2.2 In accordance with the directives of the Federal Government regarding the shifting of the banking system to Islamic modes, the State Bank of Pakistan has issued various circulars from time to time. Permissible forms of trade-related modes of financing include purchase of goods by banks from their customers and immediate resale to them at appropriate profit in price on deferred payment basis. The purchases and sales arising under these arrangements are not reflected in these unconsolidated condensed interim financial statements as such but are restricted to the amount of facility actually utilized and the appropriate portion of profit thereon.
- 2.3 The unconsolidated condensed interim financial statements are presented in Pak Rupees, which is the Bank's functional and presentation currency. The amounts are rounded off to the nearest thousand.
- 2.4 These unconsolidated condensed interim financial statements have been prepared under the historical cost convention except that certain classes of fixed assets and non-banking assets acquired in satisfaction of claims are stated at revalued amounts and certain investments and derivative financial instruments have been marked to market and are carried at fair value. In addition, obligations in respect of staff retirement benefits are carried at present value.

#### 3. STATEMENT OF COMPLIANCE

- 3.1 These unconsolidated condensed interim financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of:
  - International Accounting Standard (IAS) 34, Interim Financial Reporting, issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017;
  - Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan as are notified under the Companies Act, 2017;
  - Provisions of and directives issued under the Banking Companies Ordinance, 1962 and the Companies Act, 2017; and
  - Directives issued by the State Bank of Pakistan (SBP) and the Securities and Exchange Commission of Pakistan (SECP).

Whenever the requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 or the directives issued by the SBP and the SECP differ with the requirements of IAS 34 or IFAS, the requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 and the said directives, shall prevail.

- 3.2 The State Bank of Pakistan has deferred the applicability of International Accounting Standard (IAS) 39, 'Financial Instruments: Recognition and Measurement' and IAS 40, 'Investment Property' for Banking Companies through BSD Circular No. 10 dated August 26, 2002. The Securities and Exchange Commission of Pakistan (SECP) has deferred applicability of IFRS-7 "Financial Instruments: Disclosures" on banks through S.R.O 411(1) /2008 dated April 28, 2008. Accordingly, the requirements of these standards have not been considered in the preparation of these unconsolidated condensed interim financial statements. However, investments have been classified and valued in accordance with the requirements prescribed by the State Bank of Pakistan through various circulars.
- 3.3 The SECP vide its notification SRO 633 (I)/2014 dated 10 July 2014, adopted IFRS 10 effective from the periods starting from June 30, 2014. However, vide its notification SRO 56 (I)/2016 dated January 28, 2016, it has been notified that the requirements of IFRS 10 and section 228 of the Companies Act, 2017 will not be applicable with respect to the investment in mutual funds established under trust structure.

Notes to the Unconsolidated Condensed Interim Financial Statements (Un-audited) For the three months period ended March 31, 2019

#### 3.4 Amendments to approved accounting standards that are effective in the current period

The State Bank of Pakistan (SBP) through its BPRD Circular Letter No. 05 of 2019 dated March 22, 2019 has amended the format of interim financial statements of banks. All banks are directed to prepare their interim financial statements on the revised format effective from the accounting year starting from January 01, 2019. Accordingly, the Bank has prepared these unconsolidated condensed interim financial statements on the new format prescribed by the State Bank of Pakistan. The adoption of new format introduced additional disclosure requirements and required certain reclassification of profit and loss comparative numbers. Under revised format, cost of foreign currency swaps (note 27) amounting to Rs 370.345 million (2018: Rs 130.937 million) which was previously shown as part of foreign exchange income has now been shown as part of mark-up / return / interest expense in the unconsolidated condensed interim statement of profit and loss account.

During the year, certain amendments to standards, interpretations and improvements to accounting standards became effective; however, except IFRS 16 - Leases, the amendments, interpretations and improvements are considered not to be relevant or do not have any significant effect on the Bank's operations and therefore not detailed in these unconsolidated condensed interim financial statements.

IFRS 16 was effective for annual reporting periods beginning on or after January 01, 2019. It introduces a single, on balance sheet lease accounting model for lessees. A lessee recognizes a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligations to make lease payments. There are recognition exemptions for short-term leases and leases of low-value items. Lessor accounting remains similar to the current standard i.e. lessors continue to classify leases as finance or operating leases. The Bank through the Pakistan Banking Association approached SBP for the deferment of IFRS-16. As the matter remains under the review of SBP, the requirements of this standard have not been considered in the preparation of these unconsolidated condensed interim financial statements. Had the requirements of IFRS 16 been applied, the profit before tax (PBT) for the quarter ended March 31, 2019 would have been lower by Rs. 113.730 million, total assets and total liabilities would have been higher by Rs. by Rs. 4,987.572

#### 3.5 Standards, interpretations of and amendments to approved accounting standards that are not yet effective

There are new and amended standards and interpretations that are not yet effective. These new and amended standards and interpretations are considered not to be relevant or do not have any significant effect on the Bank's operations and are therefore not detailed in these unconsolidated condensed interim financial statements.

3.6 The disclosures made in these unconsolidated condensed interim financial statements have been limited based on a format prescribed by the SBP vide BPRD Circular Letter No. 05 of 2019 dated March 22, 2019 and IAS 34, Interim Financial Reporting. The condensed interim financial statements do not include all the information and disclosures required in the audited annual financial statements, and should be read in conjunction with the audited annual financial statements for the financial year ended 31 December 2018.

#### 4. SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies and methods of computation adopted in the preparation of these unconsolidated condensed interim financial statements are consistent with those applied in the preparation of the audited annual financial statements of the Bank for the year ended December 31, 2018.

#### 5. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The basis for accounting estimates adopted in the preparation of these unconsolidated condensed interim financial statements are the same as that applied in the preparation of the unconsolidated financial statements for the year ended December 31, 2018.

#### 6. FINANCIAL RISK MANAGEMENT

The financial risk management objectives and policies adopted by the Bank are consistent with those disclosed in the unconsolidated financial statements for the year ended December 31, 2018.

11.3.1 State Bank of Pakistan vide BSD Circular No. 2 dated January 27, 2009, BSD Circular No. 10 dated October 20, 2009, BSD Circular No. 02 of 2010 dated June 03, 2010 and BSD Circular No.1 of 2011 dated October 21, 2011 has allowed benefit of forced sale value (FSV) of Plant & Machinery under charge, pledged stock and mortgaged residential, commercial & industrial properties (land and building only) held as collateral against NPLs for five years from the date of classification. However, management has not taken the FSV benefit in calculation of specific provision.

- 11.3.3 In 2018, there was a reversal of provisions and reduction of non-performing loans amounting to Rs. 307 million as a result of settlement on debt asset swap arrangement with customers.
- 11.3.4 General provision against consumer loans represents provision maintained against fully secured performing portfolio and unsecured performing portfolio as required by the Prudential Regulations issued by the SBP. General provision against Small Enterprise Finance represents provision maintained at an amount equal to 1% of unsecured performing portfolio as required by the Prudential Regulations issued by the SBP. General provisions pertaining to overseas advances are made in accordance with the requirements of the regulatory authorities of the respective countries in which the overseas branches operate. General provision against all other advances represents provision maintained at around 0.1% of gross advances.

21.1 Supreme Court of Pakistan vide its order dated November 10, 2016 has held that the amendments made in the law introduced by the Federal Government for the levy of Workers Welfare Fund were not lawful. The Federal Board of Revenue has filed review petitions against this order which are currently pending.

Legal advice obtained on the matter indicates that consequent to filing of these review petitions the judgment may not currently be treated as conclusive. Accordingly, the Bank maintained its provision in respect of WWF.

#### Notes to the Unconsolidated Condensed Interim Financial Statements (Un-audited) For the three months period ended March 31, 2019

Under IFRS-3 a bargain purchase represents an economic gain which should be immediately recognized by the acquirer as income. However, the amount of bargain purchase gain was not been taken to the profit and loss account as the SBP, through its letter BPRD(R&PD)/2017/14330 dated June 13, 2017 recommended that the amount of gain may be routed directly into equity as a Non-distributable Capital Reserve (NCR). The NCR may become available for distribution through a stock dividend only with prior approval of the SBP. The Bank, before distribution of the gain as a stock dividend, may adjust any subsequent provisions/deficit, assessed by the Bank or recommended by the Banking Inspection Department of SBP, in the acquired assets and liabilities of NIB Bank Limited against the NCR.

Statutory reserve represents amount set aside as per the requirements of section 21 of the Banking Companies Ordinance, 1962.

	Claims against the Bank not acknowledged as debts	24.3.1	24,416,130	16,612,336

24.3.1 These represent certain claims by third parties against the Bank, which are being contested in the Courts of law. The management is of the view that these relate to the normal course of business and the possibility of an outflow of economic resources is remote.

#### 24.4 Taxation

The Income Tax returns of the Bank have been filed up to the tax year 2019 (accounting year ended December 31, 2018) and were deemed to be assessed under section 120 of the Income Tax Ordinance, 2001 (Ordinance) unless amended by the Commissioner of Inland Revenue.

The income tax authorities have issued amended assessment orders for various tax years. The Bank has filed appeals which are pending at various appellate forums. In addition, certain decisions made in favour of the Bank are being contested by the department at higher forums. The management of the Bank is confident that the appeals will be decided in favor of the Bank.

#### 36. FAIR VALUE MEASUREMENTS

The fair value of traded investments is based on quoted market prices, except for tradable securities classified by the Bank as 'held to maturity'. Quoted securities classified as held to maturity are carried at amortised cost. Fair value of unquoted equity investments other than investments in associates and subsidiaries is determined on the basis of break up value of these investments as per the latest available financial statements.

Fair value of fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to absence of current and active market for such assets and liabilities and reliable data regarding market rates for similar instruments.

In the opinion of the management, the fair value of the financial assets and financial liabilities are not significantly different from their carrying values since assets and liabilities are either short-term in nature or re-priced over short term.

#### 36.1 Fair value of financial assets

The Bank measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

#### Valuation techniques used in determination of fair valuation of financial instruments within level 2

Item	Valuation approach and input used
Federal Government securities	The fair values of Federal Government securities are determined using the PKRV rates.
Term Finance and Bonds	Investments in debt securities (comprising term finance certificates, bonds and any other security issued by a company or a body corporate for the purpose of raising funds in the form of redeemable capital) are valued on the basis of the rates announced by the Mutual Funds Association of Pakistan (MUFAP) in accordance with the methodology prescribed by the Securities and Exchange Commission of Pakistan.
Foreign exchange contracts	The valuation has been determined by interpolating the mid rates announced by the State Bank of Pakistan.
Derivatives	The fair values of derivatives which are not quoted in active markets are determined by using valuation techniques. The valuation techniques take into account the relevant underlying parameters including foreign currency involved, interest rates, yield curves, volatilities, contracts duration etc.
Operating fixed assets (land and building) & NBA	Land and buildings are revalued every three years using professional valuers on the panel of Pakistan Banker's Association. The valuation is based on their assessment of market value of the properties.

The Bank's policy is to recognise transfers into and out of the different fair value hierarchy levels at the date the event or change in circumstances that caused the transfer occurred. There were no transfers between levels 1 and 2 during the year.

#### (a) Financial instruments in level 1

Financial instruments included in level 1 comprise of investments in listed ordinary shares and units of mutual funds.

#### (b) Financial instruments in level 2

Financial instruments included in level 2 comprise of Sukuk Bonds, Pakistan Investment Bonds, Market Treasury Bills, Term Finance certificates, FX options, Cross Currency Swaps, Interest Rate Swaps and Forward Exchange Contracts.

#### (c) Financial instruments in level 3

Currently, no financial instruments are classified in level 3.

#### Notes to the Unconsolidated Condensed Interim Financial Statements (Un-audited) For the three months period ended March 31, 2019

The table below analyses the financial and non-financial assets carried at fair values, by valuation methods. For financial assets, the Bank essentially carries its investments in debt and equity securities at fair values. Valuation of investments is carried out as per guidelines specified by the SBP. In case of non-financial assets, the Bank has adopted revaluation model (as per IAS 16) in respect of land and building.

Notes to the Consolidated Condensed Interim Financial Statements (Un-audited) For the three months period ended March 31, 2019

#### 1. STATUS AND NATURE OF BUSINESS

#### The Group consists of: - Holding Company - MCB Bank Limited

Subsidiary Companies	"Percentage holding of MCB Bank Limited"
- MCB Financial Services Limited	100%
- MNET Services (Private) Limited	100%
- MCB - Arif Habib Savings and Investments Limited	51.33%
-"MCB Leasing" Closed' Joint Stock Company	99.94%
- MCB Islamic Bank Limited	100%
- Financial Management Services (Private) Limited	95.90%

MCB Bank Limited (the 'Bank') is a banking company incorporated in Pakistan and is engaged in commercial banking and related services. The Bank's ordinary shares are listed on the Pakistan stock exchange. The Bank's Registered Office and Principal Office are situated at MCB -15 Main Gulberg, Lahore. The Bank operates 1,374 branches (2018: 1,376 branches) within Pakistan and 11 branches (2018: 11 branches) outside Pakistan (including the Karachi Export Processing Zone branch).

#### 2. BASIS OF PREPARATION

S

- 2.1 These consolidated financial statements include the financial statements of MCB Bank Limited and its subsidiary companies.
  - a. Subsidiaries are all entities over which the Group has the power to govern the financial and operating policies accompanying a shareholding of more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable are considered when assessing whether the Group controls another entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date when control ceases. The assets and liabilities of subsidiary companies have been consolidated on a line by line basis based in the financial statements for the period ended March 31, 2019 and the carrying value of investments held by the Group is eliminated against the subsidiaries' shareholders' equity in these consolidated condensed interim financial statements. Material intra-Group balances and transactions have been eliminated.
  - b. Associates are entities over which the Group has significant influence but not control. Investments in associates are accounted for under the equity method of accounting and are initially recognised at cost, thereafter adjusted for the post-acquisition change in the Group's share of net assets of the associates. The cumulative post-acquisition movements are adjusted in the carrying amount of the investment. Accounting policies of the associates have been changed where necessary to ensure consistency with the policies adopted by the Group. The Group's share in associates have been accounted for based on the financial statements for the period ended March 31, 2019.
  - c. Non-controlling interest is that part of the net results of operations and of net assets of subsidiary companies attributable to interests which are not owned by the Group.
- 2.2 In accordance with the directives of the Federal Government regarding the shifting of the banking system to Islamic modes, the State Bank of Pakistan has issued various circulars from time to time. Permissible forms of trade-related modes of financing include purchase of goods by banks from their customers and immediate resale to them at appropriate profit in price on deferred payment basis. The purchases and sales arising under these arrangements are not reflected in these consolidated condensed interim financial statements as such but are restricted to the amount of facility actually utilized and the appropriate portion of profit thereon.
- 2.3 The financial results of the Group's Islamic Banking business have been consolidated in these financial statements for reporting purposes, after eliminating material inter-group transactions / balances. Key financial figures of the Islamic Banking business are disclosed in note 40 to these consolidated condensed interim financial statements.
- 2.4 The consolidated condensed interim financial statements are presented in Pak Rupees, which is the Bank's functional and presentation currency. The amounts are rounded off to the nearest thousand.
- 2.5 These consolidated financial statements have been prepared under the historical cost convention except that certain classes of fixed assets and non-banking assets acquired in satisfaction of claims are stated at revalued amounts and certain investments and derivative financial instruments have been marked to market and are carried at fair value. In addition, obligations in respect of staff retirement benefits are carried at present value.

#### MCB Bank Limited & Subsidiary Companies

Notes to the Consolidated Condensed Interim Financial Statements (Un-audited) For the three months period ended March 31, 2019

#### 3. STATEMENT OF COMPLIANCE

**3.1** These consolidated condensed interim financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of:

- International Accounting Standard (IAS) 34, Interim Financial Reporting, issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017;

- Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan as are notified under the Companies Act, 2017;

- Provisions of and directives issued under the Banking Companies Ordinance, 1962 and the Companies Act, 2017; and

- Directives issued by the State Bank of Pakistan (SBP) and the Securities and Exchange Commission of Pakistan (SECP).

Whenever the requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 or the directives issued by the SBP and the SECP differ with the requirements of IAS 34 or IFAS, the requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 and the said directives, shall prevail.

- 3.2 The State Bank of Pakistan has deferred the applicability of International Accounting Standard (IAS) 39, 'Financial Instruments: Recognition and Measurement' and IAS 40, 'Investment Property' for Banking Companies through BSD Circular No. 10 dated August 26, 2002. The Securities and Exchange Commission of Pakistan (SECP) has deferred applicability of IFRS-7 "Financial Instruments: Disclosures" on banks through S.R.O 411(1) /2008 dated April 28, 2008. Accordingly, the requirements of these standards have not been classified and valued in accordance with the requirements prescribed by the State Bank of Pakistan through various circulars.
- 3.3 The SECP vide its notification SRO 633 (I)/2014 dated 10 July 2014, adopted IFRS 10 effective from the periods starting from June 30, 2014. However, vide its notification SRO 56 (I)/2016 dated January 28, 2016, it has been notified that the requirements of IFRS 10 and section 228 of the Companies Act, 2017 will not be applicable with respect to the investment in mutual funds established under trust structure.

#### 3.4 Amendments to approved accounting standards that are effective in the current period

The State Bank of Pakistan (SBP) through its BPRD Circular Letter No. 05 of 2019 dated March 22, 2019 has amended the format of interim financial statements of banks. All banks are directed to prepare their interim financial statements on the revised format effective from the accounting year starting from January 01, 2019. Accordingly, the Group has prepared these consolidated condensed interim financial statements on the new format prescribed by the State Bank of Pakistan. The adoption of new format introduced additional disclosure requirements and required certain reclassification of profit and loss comparative numbers. Under revised format, cost of foreign currency swaps (note 27) amounting to Rs 370.345 million (2018: Rs 130.937 million) which was previously shown as part of foreign exchange income has now been shown as part of mark-up / return / interest expense in the consolidated statement of profit and loss account.

During the year, certain amendments to standards, interpretations and improvements to accounting standards became effective; however, except IFRS 16 - Leases, the amendments, interpretations and improvements are considered not to be relevant or do not have any significant effect on the Bank's operations and therefore not detailed in these consolidated condensed interim financial statements.

IFRS 16 was effective for annual reporting periods beginning on or after January 01, 2019. It introduces a single, on balance sheet lease accounting model for lessees. A lessee recognizes a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligations to make lease payments. There are recognition exemptions for short-term leases and leases of low-value items. Lessor accounting remains similar to the current standard i.e. lessors continue to classify leases as finance or operating leases. The Group through the Pakistan Banking Association approached SBP for the deferment of IFRS-16. As the matter remains under the review of SBP, the requirements of this standard have not been considered in the preparation of these consolidated condensed interim financial statements. Had the requirements of IFRS 16 been applied, the profit before tax (PBT) for the quarter ended March 31, 2019 would have been lower by Rs. 125.655 million, total assets and total liabilities would have been higher by Rs. by Rs. 7,262.334

#### 3.5 Standards, interpretations of and amendments to approved accounting standards that are not yet effective

There are new and amended standards and interpretations that are that are not yet effective. These new and amended standards and interpretations are considered not to be relevant or do not have any significant effect on the Group's operations and are therefore not detailed in these consolidated condensed interim financial statements.

Notes to the Consolidated Condensed Interim Financial Statements (Un-audited) For the three months period ended March 31, 2019

3.6 The disclosures made in these consolidated condensed interim financial statements have been limited based on a format prescribed by the SBP vide BPRD Circular Letter No. 05 of 2019 dated March 22, 2019 and IAS 34, Interim Financial Reporting. The condensed interim financial statements do not include all the information and disclosures required in the audited annual financial statements, and should be read in conjunction with the audited annual financial statements for the financial year ended 31 December 2018.

#### SIGNIFICANT ACCOUNTING POLICIES 4.

The significant accounting policies and methods of computation adopted in the preparation of these consolidated condensed interim financial statements are consistent with those applied in the preparation of the consolidated audited annual financial statements of the Group for the year ended December 31, 2018.

#### 5. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The basis for accounting estimates adopted in the preparation of these consolidated condensed interim financial statements are the same as that applied in the preparation of the consolidated financial statements for the year ended December 31, 2018.

#### FINANCIAL RISK MANAGEMENT 6.

The financial risk management objectives and policies adopted by the Group are consistent with those disclosed in the consolidated financial statements for the year ended December 31, 2018.

21.1 Supreme Court of Pakistan vide its order dated November 10, 2016 has held that the amendments made in the law introduced by the Federal Government for the levy of Workers Welfare Fund were not lawful. The Federal Board of Revenue has filed review petitions against this order which are currently pending.

Legal advice obtained on the matter indicates that consequent to filing of these review petitions the judgment may not currently be treated as conclusive. Accordingly, the Bank maintained its provision in respect of WWF.

	General reserve	18,600,000	18,600,000
		75,230,314	74,374,573

Under IFRS-3 a bargain purchase represents an economic gain which should be immediately recognized by the acquirer as income. However, the amount of bargain purchase gain was not been taken to the profit and loss account as the SBP, through its letter BPRD(R&PD)/2017/1430 dated June 13, 2017 recommended that the amount of gain may be routed directly into equity as a Non-distributable Capital Reserve (NCR). The NCR may become available for distribution through a stock dividend only with prior approval of the SBP. The Group, before distribution of the gain as a stock dividend, may adjust any subsequent provisions/deficit, assessed by the Group or recommended by the Banking Inspection Department of SBP, in the acquired assets and liabilities of NIB Bank Limited against the NCR.

Statutory reserve represents amount set aside as per the requirements of section 21 of the Banking Companies Ordinance, 1962.

24.3.1 These represent certain claims by third parties against the Bank, which are being contested in the Courts of law. The management is of the view that these relate to the normal course of business and the possibility of an outflow of economic resources is remote.

#### 24.4 Taxation

The Income Tax returns of the Bank have been filed up to the tax year 2019 (accounting year ended December 31, 2018) and were deemed to be assessed under section 120 of the Income Tax Ordinance, 2001 (Ordinance) unless amended by the Commissioner of Inland Revenue.

The income tax authorities have issued amended assessment orders for various tax years. The Bank has filed appeals which are pending at various appellate forums. In addition, certain decisions made in favour of the Bank are being contested by the department at higher forums. The management of the Bank is confident that the appeals will be decided in favor of the Bank.

#### 36. FAIR VALUE MEASUREMENTS

The fair value of traded investments is based on quoted market prices, except for tradable securities classified by the Group as 'held to maturity'. Quoted securities classified as held to maturity are carried at amortised cost. Fair value of unquoted equity investments other than investments in associates is determined on the basis of break up value of these investments as per the latest available financial statements.

Fair value of fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to absence of current and active market for such assets and liabilities and reliable data regarding market rates for similar instruments. The provision for impairment of loans and advances has been calculated in accordance with the Group's accounting policy as stated in note 4 to these consolidated condensed interim financial statements.

In the opinion of the management, the fair value of the financial assets and financial liabilities are not significantly different from their carrying values since assets and liabilities are either short-term in nature or re-priced over short term.

#### 36.1 Fair value of financial assets

The Group measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

#### Valuation techniques used in determination of fair valuation of financial instruments within level 2

Item	Valuation approach and input used
Federal Government securities	The fair values of Federal Government securities are determined using the PKRV rates.
Term Finance and Bonds	Investments in debt securities (comprising term finance certificates, bonds and any other security issued by a company or a body corporate for the purpose of raising funds in the form of redeemable capital) are valued on the basis of the rates announced by the Mutual Funds Association of Pakistan (MUFAP) in accordance with the methodology prescribed by the Securities and Exchange Commission of Pakistan.
Foreign exchange contracts	The valuation has been determined by interpolating the mid rates announced by the State Bank of Pakistan.
Derivatives	The fair values of derivatives which are not quoted in active markets are determined by using valuation techniques. The valuation techniques take into account the relevant underlying parameters including foreign currency involved, interest rates, yield curves, volatilities, contracts duration etc.
Operating fixed assets (land and building) & NBA	Land and buildings are revalued every three years using professional valuers on the panel of Pakistan Banker's Association. The valuation is based on their assessment of market value of the properties.

The Group's policy is to recognise transfers into and out of the different fair value hierarchy levels at the date the event or change in circumstances that caused the transfer occurred. There were no transfers between levels 1 and 2 during the period.

#### (a) Financial instruments in level 1

Financial instruments included in level 1 comprise of investments in listed ordinary shares and units of mutual funds.

#### (b) Financial instruments in level 2

Financial instruments included in level 2 comprise of Sukuk Bonds, Pakistan Investment Bonds, Market Treasury Bills, Term Finance certificates, FX options, Cross Currency Swaps, Interest Rate Swaps and Forward Exchange Contracts.

#### (c) Financial instruments in level 3

Currently, no financial instruments are classified in level 3.

#### MCB Bank Limited & Subsidiary Companies

#### Notes to the Consolidated Condensed Interim Financial Statements (Un-audited) For the three months period ended March 31, 2019

The table below analyses the financial and non-financial assets carried at fair values, by valuation methods. For financial assets, the Group essentially carries its investments in debt and equity securities at fair values. Valuation of investments is carried out as per guidelines specified by the SBP. In case of non-financial assets, the Bank has adopted revaluation model (as per IAS 16) in respect of land and building.
