1. Introduction to Bank

MCB Bank Limited (the “Head Office”) is a Pakistan registered bank with its principal office in Lahore, Pakistan. It commenced its operations in the United Arab Emirates (UAE) in 2014 as a wholesale bank and currently has two branches (the “Bank”) in Emirates of Dubai and Emirates of Sharjah.

2. Objective and Scope

The purpose of this report is to inform market participants of the key components, scope and effectiveness of the Bank’s risk measurement processes, risk profile and capital adequacy. This is accomplished by providing consistent and understandable disclosures of the Bank’s risk profile in a manner that enhances comparability with other financial institutions.

Capital management and risk management are important parts of the Bank’s strategy formulation process and are reflected in the Bank’s long term objectives. The primary objective of the MCB UAE’s capital and risk management strategy is to protect the financial strength of the Bank, ensure its sustainability and safeguard its reputation.

3. Introduction to Bank’s Capital adequacy framework

The Central Bank of the UAE (“CB UAE”) sets and monitors capital requirements for the Group as a whole. The CBUAE issued Basel III capital regulations, which came into effect from 1 February 2017 introducing minimum capital requirements at three levels, namely Common Equity Tier 1 (“CET1”), Additional Tier 1 (“AT1”) and Total Capital. The additional capital buffers (Capital Conservation Buffer (“CCB”) and Countercyclical Capital Buffer (“CCyB”) maximum up to 2.5% for each buffer) introduced are over and above the minimum CET1 requirement of 7%.

The requirements of the Central Bank of the UAE act as the framework for the implementation of the Basel III Accord in the UAE. Central Bank of UAE published Capital Adequacy Standards and Guidance along with Notice 4980/2020 on 12th November 2020. This included revised Standards and Guidance with respect to Pillar 3 – Market Disclosures. Further to this, the Central Bank of UAE provided explanatory notes and disclosure templates for Pillar 3 on 30th November 2021 as part of Notice 5508/2021 and Update through notice 2022/1887 dated May 09, 2022.

This document presents the Pillar 3 disclosures of MCB Bank Limited – UAE Branch (“the Bank”) as at 30 June 2026. The purpose of Pillar 3 disclosures is to allow market participants to assess key pieces of information on the firm's capital, risk exposures and risk assessment process.

3.1 Regulatory Framework

The framework is structured around the following three Pillars:

1. Pillar 1 on minimum capital requirements for credit, market and operational risk
2. Pillar 2 on the supervisory review process and the Internal Capital Adequacy Assessment Process (ICAAP)
3. Pillar 3 on market discipline

3.2 Pillar 1 – Minimum Capital Requirement

Pillar 1 defines the total minimum capital requirements for credit, market and operational risk. MCB Bank Limited - UAE Branch uses standardized approach for assessment of Credit, Market and Operational Risk weighted assets (RWA). Under the standardized approach, regulatory prescribed risk weights and parameters are applied to calculate Pillar 1 capital requirements.

CBUAE has put in regulatory thresholds for Common Equity Tier 1, Tier 1 and overall regulatory Capital.

1. CET1 must be at least 7.0% of risk weighted assets (RWA);
2. Tier 1 Capital must be at least 8.5% of RWA;
3. Total Capital, calculated as the sum of Tier 1 Capital and Tier 2 Capital, must be at least 10.5% of RWA.

On top of this minimum capital requirement CBUAE has also mandated the Banks to keep additional buffers.

- In addition to the minimum CET1 capital of 7.0% of RWA, banks must maintain a capital conservation buffer (CCB) of 2.5% of RWAs in the form of CET1 capital
- To achieve the broader macro-prudential goal of protecting the banking sector from periods of excess aggregate credit growth and in addition to the CCB requirements, banks may be required to implement the countercyclical buffer (CCyB). Banks must meet the CCyB requirements by using CET1 capital. The level of the CCyB requirements will vary between 0% - 2.5% of RWA and be communicated by the Central Bank with an adequate notice period.

These requirements are summarized in the table below:

Capital Element	Requirement
Minimum Common Equity Tier 1 Ratio	7.0%
Minimum Tier 1 Capital Ratio	8.5%
Minimum Capital Adequacy Ratio	10.5%
Capital Conservation Buffer	2.5%
Domestic Systemically Important Banks Buffer	1.5%
Countercyclical buffer (0% - 2.5%)	0%

The capital ratios for MCB Bank Limited - UAE Branch as of 30th June 2026 are given below. All of these are well above the CBUAE minimum.

Common Equity Tier 1 Ratio	22.20%
Capital Adequacy Ratio	22.90%

3.3 Pillar 2 – ICAAP and Supervisory Review Process

The ICAAP is considered as an essential tool to address all current and potential material risks. MCB Bank ensures that it not only satisfies the minimum regulatory capital requirements of CBUAE but also maintains appropriate internal capital levels in line with the current and anticipated capital requirements and to withstand stress scenarios. Key highlights of ICAAP are as below:

- Business background & Group structure
- Business model and products offered by bank
- Stress Testing
- Risk assessment and disclosures
- Business strategy & financial projections

3.4 Pillar 3 – Market Discipline

The Bank discloses to its external stakeholder's detailed qualitative and quantitative information on its risk management practice and capital adequacy in line with the CBUAE Pillar 3 guidelines. Pillar 3 complements the Pillar 1 - minimum capital requirements and the Pillar 2 – ICAAP and supervisory review process. The purpose of Pillar 3 disclosures is to enhance market discipline through disclosure requirements which allows market participants to assess the risk exposures of the Bank around capital, material risk exposures and internal risk assessment processes and mitigation strategies, and hence assess the strength of the Bank. The reporting frequency of the revised set of disclosures has been defined by CBUAE.

3.4.1 Significant capital adequacy, liquidity and funding related disclosure requirements:

Capital adequacy, funding, liquidity and related disclosures in Pillar 3 report has been prepared in accordance with Central Bank of UAE Pillar 3 disclosure requirements as stipulated in Standards and Guidance re Capital Adequacy in the UAE (Notice CBUAE/BSD/N/2022/5280 dated 30 December 2022) and Explanatory Notes on Pillar 3 Disclosure requirements, the underlying BCBS guidance “updated Pillar 3 disclosure requirements” issued in May 9 2022
