**PERFORMANCE REVIEW**

The Bank has witnessed resilient operating performance in the first quarter of 2009 with healthy growth in balance sheet and key profitability indicators. Profit before tax showed increase of Rs. 479 million (8%) over the similar period last year and closed at Rs. 6.24 billion. Profit after tax registered a slight increase of 1% over March 2008 and closed at Rs. 4.13 billion. This translates into EPS of Rs. 5.98 as compared to Rs. 5.95 in March 2008.

Provision against loans and advances amounting to Rs. 1.79 billion has been charged to the profit and loss account which is higher by Rs. 1.18 billion when compared with the corresponding period last year.

Total assets have grown to Rs. 456 billion, an increase of 3% over Rs. 444 billion as at December 2008 and have grown by 15% over Rs. 397 billion in March 2008. Deposits showed an increase of Rs. 8 billion over December 2008 and closed at Rs. 338 billion i.e. a growth of 2% over Dec 08. Growth in deposits has been achieved in current and savings deposits which represent increase of 2% and 7% over December 2008 respectively. Gross advances are reported at Rs. 257 billion highlighting a decline of 6% over December 2008. This decrease is primarily because of the slowdown in credit to private sector.

**RATINGS**

Moody's assigned ratings for BSFRs and Global Local Currency Deposit are D and Baa3/P-3 respectively. PACRA has maintained long term and short term ratings of AA+ & A1+ of the Bank respectively which supports its stable outlook.

**ECONOMY**

The year 2009 has for Pakistan started with optimism, albeit modest, and improvement in the sense of crisis predicted for the country towards the end of 2008. After the settlement of the judicial crisis, there has been some relief on the political front although the country's global standing still remains compromised due to frequent terrorist attacks. Pakistan has benefitted from timely and disciplined implementation of macroeconomic stabilization policies. Moreover the tight monetary stance in particular has contributed towards trimming the inflation down to 19.1 percent in March 2009 as compared to 23.3 percent in December 2008. Nominal GDP for the current fiscal year is predicted at \$162.6 billion, a contraction of \$4.6 billion from the previous fiscal year. State Bank has now lowered the interest rate by 100bps to boost economy and drive growth. The country's foreign exchange reserves are building up, fuelled amongst others by a narrowing trade deficit and healthy remittances.

**FUTURE OUTLOOK**

MCB's commitment to maintaining financial strength is unwavering. Principal concerns for the Bank in these challenging times include strict cost control, risk management, customer centric growth and continued investment to support long terms strategies and ambitions. The Bank will strive to maintain its position as the best bank not only in Pakistan but frontiers beyond boundaries.

**ACKNOWLEDGEMENT**

In the end, the Board would like to thank all shareholders and customers for their unfaltering trust, our staff for their continuous hard work and dedication, and the Government of Pakistan and State Bank of Pakistan for their patronage and support.

on behalf of Directors
