2009 – A Year of Economic Stabilization

Economic activity slowed down markedly in FY 2009 with GDP growth of 2% - but a slow recovery appears to be underway this year

Inflationary pressures reduced somewhat with CPI declining from over 20% in Jan '09 to 10.5% by YE (currently, back-up to 13%)

External account improved markedly and FX reserves are now close to US\$ 15B

Interest rates remained elevated in 2009 due to inflationary concerns, although Kibor declined from its high of over 15% in Jan '09

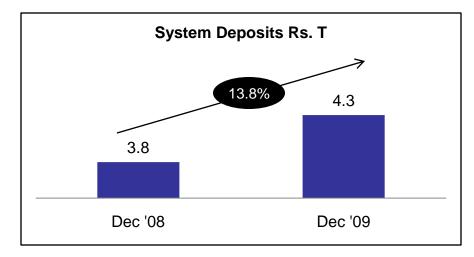

Circular debt and power issues placed the economy under significant challenges throughout the year

Law and order situation remains a concern

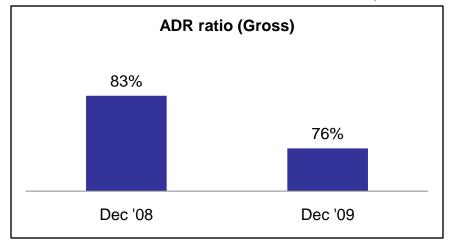

Banking System Developments

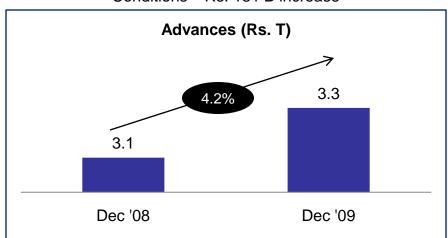

Deposit Market Grew by Rs. 524 B in 2009

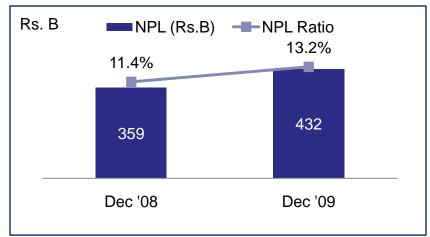

ADR ratio declined as Deposits Grew More Than Advances, and Govt. Borrowed Heavily

Sluggish Growth in Lending Reflecting Overall Economic Conditions – Rs. 131 B increase

NPL formation Declined to 27% in 2009 Compared to 70% in 2008
